STYLE & REFERENCE MANUAL

2012-2013 Edition

Professional Business Associates has established a standard style for all documents that are produced for the Workplace Skills Assessment Program. These styles can be found on the following pages. Please review the styles carefully in preparing the Workplace Skills Assessment Program documents. **Documents must be prepared using the formats specified in this manual.**

Formatting Notes

- Use left justification of documents unless otherwise indicated.
- Use a 12-point Times New Roman font unless otherwise indicated—including headers and footers.
- Spacing Guidelines:
 - One or two spaces may be used between the two-letter state abbreviation and the ZIP code.
 - One or two spaces may be used following the end-of-sentence punctuation.
 - One or two spaces may be used after a colon.
 - For a dash, use either an em dash key or two hyphens (no spaces before, between, or after). Spacing must be consistent throughout the document.
- When using the abbreviation for Post Office in an inside address, it should be as follows:
P.O.
- In a series, the comma before the conjunction is optional.
- Main and subheadings should be keyed in boldface in all documents except in the Report format.
- Documents in the *Style & Reference Manual* may not show the correct top margins due to instruction box at the top of the page.
- Header and footer margins are .5" unless otherwise indicated.
- All signature lines will be 2".
- Enumerations and bullets are formatted the same way in letters and memos. (See memo for example.)
- All long quotes are indented .5" from the right and left margins.
- For reports: MLA Style should be followed. Bullets should not be used. Enumeration may be used.

Production Standards

Criteria for the evaluation of computer-generated items

I. Method of Evaluation

- A. Student completion time will be used to determine ranking in case of a tie.
- B. The same evaluator determines the document's scoring level and calculates Points Awarded.
- C. Another evaluator calculates and verifies total points earned.
- D. Left justification of documents is to be used unless otherwise indicated.
- E. Use a 12-point Times New Roman font unless otherwise indicated.
- F. Spacing Guidelines:
 - One or two spaces may be used between the two-letter state abbreviation and the ZIP code.
 - One or two spaces may be used following the end of sentence punctuation.
 - One or two spaces may be used after a colon. For a dash, use either the dash key or two hyphens (no spaces before, between, or after).
- G. Spacing must be consistent throughout the document.
- H. A word cannot have more than one error; for example, the word "bokkeepre" contains only one error.
- I. Software templates may be used where applicable but must be modified to meet the standards of Professional Business Associates.
- J. A contestant may receive pro-rated credit for only one partially completed job.
- K. More than one style may be accepted if a model is not shown in the Style Manual.

II. Scoring/Errors

Secondary & Post-Secondary:

Four levels of scoring:

0 errors	(100% of assigned point value of each document)
1 error	(90% of assigned point value of each document)
2 errors	(70% of assigned point value of each document)

3 or more errors (0% of assigned point value of each document)

Each occurrence of the following counts as one error:

1. Misspelling
2. Typographical error
3. Grammatical error
4. Incorrect punctuation, capitalization, or hyphenation.
5. Addition/Omission of word(s)—each word added/omitted is an error
6. Omission of enclosure or attachment notation
7. Omission of reference initials
8. Omission of contestant number and/or job number in footer (must have both). If all or part is missing count as one error.
9. Format error: If it is clearly evident that the Style Manual format is not followed, 0% of the assigned point value for that document is awarded. If it is clearly evident that an attempt was made to follow the Style Manual format, format mistakes will count as one error each

Business Plan (*bold*)

Part I—Executive Summary (*bold*)

The Executive Summary describes the business plan in enough detail to encourage the reader to turn the page and read the information contained in the section that follows. You should pay close attention to what is written in this section. Often the reader will attempt to pass judgment based on what is contained in this part of the plan. With this in mind, the individual must generate a desire in the reader to want to invest and/or participate in the company. This is typically the last segment of the Business Plan to be written.

Part II—Description of Proposed Business (*bold*)

This section describes the company: what the company is, where the idea came from, and other information that will intrigue the reader.

Part III—Objectives of the Business (*bold*)

This section will contain the Mission and Vision statements of the company.

Part IV—Proposed Business Strategies (*bold*)

This section will touch on short term goals and a long range plan.

Part V—Product(s) and/or Service(s) to be Provided (*bold*)

The product and/or service to be provided by the company is described in this section. Included in this write-up could be an explanation as to why people will buy the product or service. What is unique about the product in relation to the competition is illustrated. Any special information about the product is shown in detail and a physical representation of the product or service needs to be presented (i.e., prototype or brochure).

Part VI—Management and Ownership of the Business (*bold*)

Create an organizational chart to identify the “key” players in the organization. Included are the company’s officers and their roles and responsibilities. Outside investors and members of the Board of Directors are identified. The descriptions of the company’s officers are to illustrate their competencies and qualifications for filling their roles.

Part VII—Marketing Analysis (*bold*)

This section of the plan describes the target market and why these individuals were chosen as the primary customers. Identifying your business and its competitive edge will be illustrated in this section. The target customer needs to be described. Methods of identifying

and attracting customers, the type of sales force, and any specific distribution channels is to be included, as is the company's pricing policy.

Part VIII—Financial Analysis (bold)

This section contains detailed financial information about the organization. The source of start-up cash and major capital expenditures is to be identified. This section will provide a balance sheet as it pertains to the opening day of business. This will define the financial standing and situation when the customer is served.

(NOTE: The financial analysis section may be less detailed for Secondary students.)

Part IX—Supporting Documentation (bold)

Include any and all information that supports your efforts in other sections. This may include layouts, brochures, flyers, business cards, résumés, product designs, prototypes, etc. These items and pages are not included in the total number of pages.

Marketing Plan (bold)

Part I—Synopsis or Mini-plan (bold)

(DS)

This section contains an Executive Summary. An Executive Summary defines and illustrates the content of the Marketing Plan. It should be no more than one page in length so as to allow the reader to determine his/her interest in reading the balance of the plan.

Part II—Company Goals (bold)

(DS)

Included in this part of the Marketing Plan are the objective and/or goals established for the organization. There are items that will generally result in and/or produce outcomes for the company to achieve.

Part III—Description of Customers and their Needs (bold)

(DS)

This section should define the target market for your product/service. In order to sell products/services, marketing experts must understand the needs of consumers. Having a clear understanding of customer motivations will provide a clear direction for the overall marketing plan. Your market research should include the gathering of demographic information.

In the global market other considerations include communication, traditions and customs, and buying habits. What does your research reveal about your target market?

Part IV—Description of Pricing Strategy (bold)

(DS)

Pricing involves many factors. The marketing plan must include your rationale for price setting. Included in this section will be all the elements affecting the production process. Differentiate between fixed and variable costs as well as the break-even point. Profit margin should be established in this section.

Part V—Competition (bold)

(DS)

In this section you provide a clear picture of the overall market. How many other firms/businesses offer the same product/service? What is your plan to win over the customer base when they have a clear choice between your offerings and the other firms/businesses? Is there a place for your business?

Part VI—Marketing Mix (bold)

(DS)

A good marketing plan answers questions regarding the promotion of the product/service. Will it appeal to buyers? How much should it cost? How does the seller get information distributed to potential buyers? Where should the product/service be sold? How does this product/service appeal to consumers in other countries? This section should include the factors of price, promotion, and location.

Part VII—Economic, Social, Legal, and Technological Trends (*bold*)
(DS)

Key factors in these areas have a dramatic effect on the success or failure of a business. This section should include your research findings as they relate to the product/service you are marketing. Make sure your findings relate specifically to your marketing plan.

Part VIII—Human Resource Requirements (*bold*)
(DS)

What is the organizational structure of your business? This section should include an organization chart that defines management, supervision, and all levels of employment within your organization as well as job descriptions, required education and skills, and work experience requirements.

Part IX—Marketing Timeline (*bold*)
(DS)

No marketing plan can be implemented without a timeline for yourself and your employees. Include timeframes for implementation of the specific strategies included in your Marketing Plan. Detail employee responsibilities for the items in the timeframe. Timeframes can be as short as one week or as long as one year.

Part X—Methods of Measuring Success (*bold*)
(DS)

How will you determine the success of your marketing plan and your business?

 Report Format
 (DS)

**NOTE: The title is typed in Title Case
 (not all caps) and is not bold.**

Whether written for personal or business use, a report should present a message that is well organized, stated simply, and clear in meaning. A report that does not meet these criteria reflects a lack of planning and preparation.

Planning a Report

Three steps should be taken in planning a report. Selecting the topic is not merely the first step, but also the most important one. It is vital that you choose a topic in which you have sufficient interest to do the necessary related reading and research (LePoole 197).

Preparing the Report

The following three steps should be utilized in preparing the report:

1. Look for data and authoritative statements.
2. Prepare a rough draft of the report, organizing the data into a series of related paragraphs. A sentence that follows enumerated items within the same paragraph should begin at the left margin.
3. Read the rough draft carefully.

Whether the report is typed or printed, it should be neat and arranged in proper format. A neat report presented in an orderly style makes an immediate positive impression on the reader.

Rules for Alphabetic Filing (ARMA)

The following seven rules provide consistency in simplified filing.

1. Each filing unit in a filing segment is to be considered. This includes prepositions, conjunctions, and articles. The only exception is when the word **The** is the first filing unit in a filing segment. In this case, **The** is the last filing unit. Spell out all symbols (e.g., &, \$, #) and file alphabetically.
2. Alphabetize by arranging files **unit-by-unit** and **letter-by-letter** within each unit.
3. File “nothing before something.” File single unit filing segments before multiple unit filing segments.
4. Ignore all punctuation when alphabetizing. This includes periods, commas, dashes, hyphens, apostrophes, etc. Hyphenated words are considered one unit.
5. Arabic and Roman numbers are filed sequentially before alphabetical characters. All Arabic numerals precede all Roman numerals.
6. Acronyms, abbreviations, and radio and television station call letters are filed as one unit.
7. File under the most commonly used name or title. Cross-reference under other names or titles, which might be used in an information request.

Personal Names

1. Simple Personal Names
Use the last name (surname) as the first filing unit. The first name or initial is the second filing unit. Subsequent names or initials are filed as successive units.
2. Personal Names with Prefixes
Surnames that include a prefix are filed as one unit whether the prefix is followed by a space or not. Examples of prefixes are: D', Da, De, Del, De la, Della, Den., Des, Di, Du, El, Fitz, L', La, Las, Le, Les, Lo, Los, M, Mac, Mc, O', Saint, St., Ste., Te, Ten, Ter, Van, Van de, Van der, Von, Von der.
3. Personal Names with Personal and Professional Titles and Suffixes
Suffixes are not used as filing units except when needed to distinguish between two or more identical names. When needed, a suffix is the last filing unit and is filed as written, ignoring punctuation. Examples of suffixes are: Jr., III.
4. Personal Names which are Hyphenated
Ignore the hyphen and file the two words as one unit.
5. Pseudonyms and Royal and Religious Titles
Pseudonyms are filed as written. Personal names that start with a royal or religious title and are followed by only a given name(s) are filed as written.

6. Foreign Personal Names

If the surname is identifiable, file the name as any other personal name is filed. If there is a question about the surname, use the last name as the first filing unit and make a cross-reference from the first name.

7. Nicknames

When a person commonly uses a nickname as a first name, file using the nickname. Cross-reference from the given name only if necessary.

Business Names

When the same filing segment is applicable to more than one location, filing order is determined by an identifying location. In the case of banks, unions, etc., this location may be a branch, local number, post, etc. For most businesses, it will be an address. When using an address, cities are considered first, followed by states or provinces, street names, house number, and then building number, in that order.

Address Arrangement

When the first units of street names are written as numbers, the street names are considered in ascending numeric order and placed together before alphabetic street names.

Street names with compass directions are considered as written. Numbers after compass directions are considered before alphabetic names (for example: East 8th, East Main, Franklin, SE Eighth, Southeast Eighth, etc.)

If a filing unit within an address is not necessary for identification, it does not have to be used.

Business and Organization Names

1. Business and organization names are filed as written, using the business letterhead or trademark as a guide. Names with prefixes follow the example for personal names with prefixes.

Note: When necessary to ensure information retrieval, cross-reference between acronyms and the complete name.

2. Subsidiaries of businesses will be filed under their own name with a cross-reference to the parent company, if needed.
3. Location words in business names will follow the standard rule that each word/filing unit is treated as a separate filing unit.
4. Compass terms in business names: Each word/unit in a filing segment containing a compass term is considered a separate filing unit. If the term includes more than one compass point, treat it as it is written. Establish cross-references as needed.

U.S. Governmental/Political Designations

When filing governmental/political material, the name of the major/governmental/political entity is filed first, followed by the **distinctive** name of the department, bureau, etc.

This rule covers all governmental and political divisions, agencies, department, committees, etc. from the federal to the state, county/parish, city, district, and ward level.

EXAMPLES:

Federal

The name of the major governmental entity, United States Government, is filed first followed by the distinctive name of the department, office, service, bureau, etc. For example, Labor is the distinctive part of the name Department of Labor, so it should be filed as Labor Department (of).

United States Government
Agriculture Department (of)
Natural Resources Office (of)
Forestry Service

United States Government
Environmental Protection Agency

State and Local

State, county, parish, city, town, township, and village governmental/political divisions are filed by their distinctive names. The words “county,” “city” “department” etc., if needed and as appropriate, are added for clarity and are considered filing units.

Ohio State (of)
Transportation Department (of)
Motor Vehicles Division (of)

Note: If “of” is not part of the official name as written, it is not added.

Foreign Governments

The distinctive name translated into English is the first filing unit. If needed, the balance of the formal name of the government forms the next filing unit(s). Divisions, departments, and branches follow in sequential order, reversing the written order where necessary to give the distinctive name precedence in the filing arrangement.

States, colonies, provinces, cities, and other divisions of foreign governments are filed by their distinctive or official names as translated into English. Cross-reference written name to official native name where necessary.

Note:

- *The World Almanac* and *Book of Facts* are excellent references for the translation of foreign names into English and for clarification of relations between governments. Another source is the book *Counties, Dependencies, and Areas of Special Sovereignty* published by U.S. Dept. of Commerce, National Bureau of Standards, Institute for Computer Sciences & Technology, Gaithersburg, MD 20899.

Graphic Standards

The logo for Business Professionals of America has been carefully researched from a legal standpoint. The name is registered and the logo design protected by copyright and service mark. In order to obtain the maximum benefit from the image package, it **must be used consistently throughout the organization—locally, regionally, statewide, and nationally.**

Name Identification

State associations will be Business Professionals of America, (State) Association. Chapters will be identified as Business Professionals of America, (School Name) Chapter. The complete name will be spelled out in all written materials. The acronym BPA may be used in text once the complete name has been used. Do not use the acronym for cover titles or headlines.

The Tagline

The purpose of the organization's tagline is to serve as a linking device between our organization and our name. The official tagline is "Today's students. Tomorrow's business professionals." To ensure that there is a clear communication of Business Professionals of America, the tagline must **always** be used with the logo for all printed pieces. This is a requirement for any use of the logo and must be adhered to in every case.

- The logo and tagline must be used on every Business Professionals of America printed publication.
- The tagline can be used on one line or two lines, depending on the size and shape of the graphic piece.
- The tagline should appear in navy blue (black is acceptable), unless the printed piece is a one-color item, with all art printed in black. The tagline may appear in white, light blue, or light gray when used over a dark background.
- The type style to be used for the tagline is Futura Light, Arial, or Helvetica, upper and lower case.
- The size of the tagline may not be smaller than 7 point.

The Logo

The logo design is a type treatment of our name. The concept of the design is to provide a type style commonly associated with corporate businesses. The word "professionals" is graphically emphasized over the other design elements, through size and color keeping with the enhanced professional image of Business Professionals of America.

- The size of the logo may not be less than one inch wide.
- The one-color version can only be printed in navy blue or black.
- If two colors are used, they must be navy blue and tan.
- If three colors are used, they must be navy blue, tan, and red.

Color

The corporate color scheme is navy blue, tan, and red. All three colors are to be used whenever your budget allows, using PMS ink. (See below)

- The one-color version of the logo should ideally be navy blue; if your budget for the printed piece does not allow for a colored ink, black is acceptable.
- When the logo is printed in two or three colors, the preferred color for the tagline is navy blue, however black is acceptable.
- If the logo is printed in one color (navy blue or black), the tagline must be printed in the same color.

To reduce the occurrence of inconsistent color, all printed pieces are to be printed with Pantone Matching System (PMS) ink. The official PMS colors are to be used in every case except in four-color situations. The PMS colors are as follows:

Navy Blue	PMS 289	Tan	PMS 466	Red	PMS 185
-----------	---------	-----	---------	-----	---------

Four-color printing requires that a color formula be selected to match the specific PMS colors. The following are four-color formulas for the purpose of matching the corporate colors:

Navy Blue	20% yellow	Tan	30% yellow	Red	100% yellow
	50% magenta		10% magenta		100% magenta
	50% black		20% black		
	100% cyan				

When creating art work for computer Web pages, computer presentations, etc., the color compositions for RGB (Red, Green, Blue) may be needed if you are composing in that format. They are as follows:

Navy Blue	0% red	Tan	83.9% red	Red	80% red
	5.5% green		72.9% green		18.8% green
	26.7% blue		54.1% blue		31% blue

Typography

The type design to complement the Business Professionals of America logo is Arial or Helvetica; there are many variations, i.e., **bold**, light, *italic*.

- Arial or Helvetica will only be used with the logo, i.e., copy lines such as the corporate tagline, the state association line, and the corporate stationery address and phone number.
- Arial Bold or Helvetica Bold, Arial Bold Italic or Helvetica Bold Italic, should be used for headlines on corporate publications, exterior/interior signage, banners, and posters.
- Times or Times New Roman are to be used for body copy on all Business Professionals of America publications whether on the local, state, or national level.

Official Emblem

The Business Professionals of America emblem is one of long-standing tradition. The redesigned emblem is to be used for **ceremonial purposes only**.

- The emblem will be used for the Emblem Building Ceremony and portions of the Opening Ceremony.

Printing Tips

Do:

- follow the graphic standards printed in this booklet.
- contact the National Center if there is the slightest doubt as to the procedures outlined.
- use the artwork provided for reproduction; additional artwork is available from the National center at cost.
- use the corporate logo and tagline together in all printed circumstances.
- use the corporate colors—PMS colors and numbers.

Don't:

- use the corporate logo and tagline separately in printed pieces.
- substitute the emblem for the corporate logo.
- substitute other colors for the corporate colors.
- alter the design of the corporate logo or official emblem in any manner.
- alter, add, or delete any part of the logo, tagline, or emblem.

Note: Color separations and complete graphic standards are available from the National Center.

Home Page/Multimedia Graphic Standards

The graphic standards for the printed page should be observed in Internet Website or multimedia presentation creations whenever possible.

The rules for official logo colors should be observed. If PMS colors or RGB formulas are not available options with your software, and only preset color choices are available, then the nearest approximations to the official logo colors should be chosen.

If animation is employed, the logo may change or evolve during animation, but its final state should be either the one, two, or three-color version of the logo without any distortion or color change. Third dimension or depth may be added to the logo if it does not greatly distort the logo or change its color.

For the name, Business Professionals of America, the Helvetica or Arial font should be used.

As in the standards for the printed page, subdued colors
